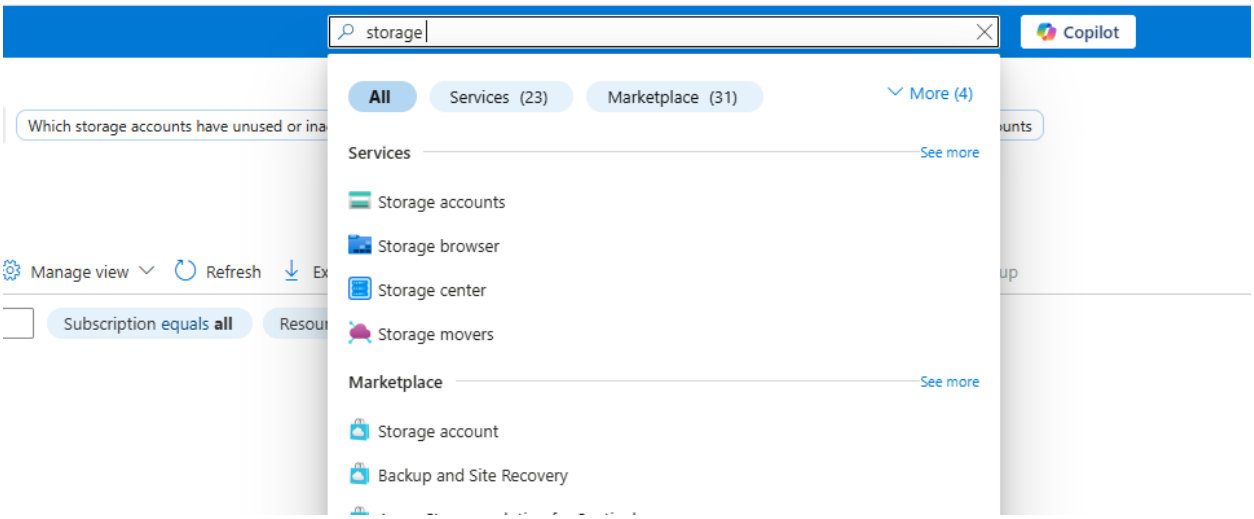
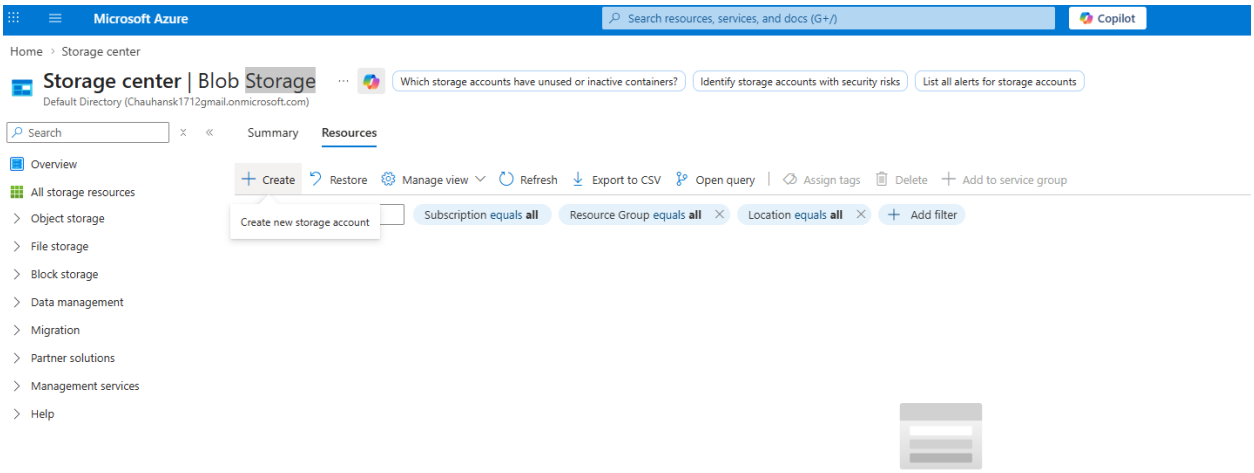
Name: Chauhan Sumit K.

Dept:- Data engineering

Search for storage account



Then click on create



Filling details for creating storage account:

You may encounter some issue if you select already created Resource group (with conflicting policies)

So just create a simple new resource group without any policies

Microsoft Azure

Search resour

Home > Storage center | Blob Storage

Create a storage account

Project details

Select the subscription in which to create the new storage account. Choose a new or existing resource group to organize and manage your storage account together with other resources.

Subscription * Azure for Students

Resource group * (New) simform-lms-practicals

Create new

Instance details

Storage account name * simsaci01

Region * (Asia Pacific) Central India

Deploy to an Azure Extended Zone

Preferred storage type Azure Blob Storage or Azure Data Lake Storage Gen 2

This helps us provide relevant guidance. It doesn't restrict your storage to this resource type. Learn more

Primary workload Select...

Pick the closest match to your workload to get a recommended configuration built on best practices. You can edit this configuration anytime. See comparison table

Performance *

- (selected) **Standard:** Recommended for most scenarios (general-purpose v2 account)
- **Premium:** Recommended for scenarios that require low latency.

Redundancy * Geo-redundant storage (GRS)

- [x] Make read access to data available in the event of regional unavailability.
- [ ] Geo priority replication guarantees Blob storage data is geo-replicated within 15 minutes.

Basics

Subscription	Azure for Students
Resource group	simform-lms-practicals
Location	Central India
Storage account name	simsaci01
Preferred storage type	Azure Blob Storage or Azure Data Lake Storage Gen 2
Primary workload	
Performance	Standard
Replication	Read-access geo-redundant storage (RA-GRS)

Advanced

Enable hierarchical namespace	Disabled
Enable SFTP	Disabled
Enable network file system v3	Disabled
Allow cross-tenant replication	Disabled
Access tier	Hot
Managed Identity for SMB	Disabled

Security

Secure transfer	Enabled
Blob anonymous access	Disabled
Allow storage account key access	Enabled
Default to Microsoft Entra authorization in the Azure portal	Disabled
